No.04/115/2018/Minor/Mines/6635

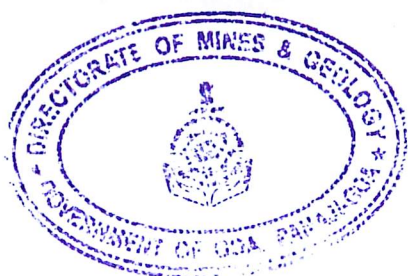

Date: 10/10/2018

**Sub:- Requirement of Maintenance of site specific details pertaining to Procurement and Consumption of minor mineral by end users.**

1. The mineral found within State of Goa belongs to the State Government.
2. The Department of Mines & Geology has developed various modules for monitoring and regulation of extraction of minor mineral, storage of minor mineral, transportation of extracted mineral so also curbing illegal activities in the State of Goa.
3. In order to ensure that the royalty payable to the State is collected and the illegal activity of sale of mineral does not take place, the Department wants to bring on board end users of minor minerals.
4. Now therefore, as a first measures in this direction, all the end users of minor mineral are hereby directed to maintain site specific details of procurement and consumption of minor minerals by showing the opening balance of minor mineral as on 15<sup>th</sup> October 2018.
5. It is expected that all the end users shall maintain the transit pass of vehicles issued by Department and carried by vehicles by which minor mineral is procured by end users. The possession of transit passes proves that such minor mineral was legally procured or mineral is legally imported in the State of Goa. A module based regulatory mechanism is already being put in place which shall include issuance of necessary passes etc., at the entry point to State or Check post either issued directly by the Department of Mines & Geology or with the help of other Departments of Government of Goa.
6. The Department reserves the right to treat the end users like Government Department or Corporations and individuals using minor mineral for construction of house differently than other end users dealing in construction business etc.,

7. The end users shall ultimately have to register themselves with Directorate of Mines & Geology and shall also be required to upload the details of procurement and utilization of minor mineral along with details of transit passes etc., as per the module developed by Mines Department.
8. The Mines Department reserves the right to inspect any site in State of Goa after 15<sup>th</sup> October 2018 to check the legality of minor mineral procured at site.

Issued for strict compliance.
